

A lasting friendship and cooperation with the people of the world can only be achieved through individual effort

Three Keywords

● Know

Discover New and Interesting Things!

The progress of globalisation has brought countries closer and closer together, as well as further increasing their dependency on one another. In turn, people and objects begin to take an ever more important role in our daily lives. The first step in learning about different countries is therefore in knowing one another.

● Participate

Enjoy Interactions with People from Across the World!

Japanese and international residents live side by side as members of the same society, living amidst Japanese culture and traditions. It is impossible for everyone to live together in harmony without getting in touch with one another.

● Acknowledge

Happiness through Mutual Acceptance!

The culture and traditions of each country are created and developed over the course of many years. Our age is one in which people must not only understand the differences between the cultures of those around them, but accept these differences as well.
